

Endavo Media Management System (EMMS) – Release Notes

Release Date: August 18, 2025

This release focuses on enhancing live chat engagement and community interaction with exciting new features for both creators and viewers.

New & Updated Features

Super Chat: Introducing Super Chat, enabling creators and viewers to engage more interactively with highlighted paid messages during live streams and events. This new feature allows viewers to support their favorite creators while also making their messages more visible to the streamer and other viewers.

Emoticons for Chat Messages: Users can now express themselves better with a wide range of emoticons available in chat conversations, making community interactions more fun and engaging.

If you have any questions about these updates or would like assistance using the new features, please contact our support team.
